

ROD ENDS & CUSTOM FULLY ASSEMBLED STRAIGHT & ADJUSTABLE LINKAGES

Triangle Manufacturing is a family owned US manufacturer specializing in a wide variety of custom linkages and rod ends. Whether you are looking for a fixed linkage or fully assembled adjustable linkage, Triangle offers several options that allow easy installation and cost savings.

With applications in lawn and garden, recreational vehicles, agriculture, HVAC and solar, Triangle provides value at the top of the industry. Expertly designed and manufactured for OEMs, our linkages feature a self-aligning ball design that compensates for surface, shaft or connection mounting irregularities. Our engineers will coordinate with your team to design a custom solution that best fits your application.

Fixed Linkages

- 5" to 21" length
- Sintered Bronze, Sintered Iron, Chrome Plated, and Nylon Bearings

Rod Ends

- Machined or Stamped
- PTFE Lined, Nylon Lined, Chrome Plated or Self Lubricated Bronze Bearings
- 5/16" or 3/8" Female Threading
- 1/4", 5/16", and 3/8" bore diameter
- Male Studded Options

Adjustable Linkages

- 5/16" or 3/8" Low Carbon Steel Wire
- 5.5" to 37" Length
- Machined, Stamped, or Studded Rod End
- Wrench Flat included
- Standard Zinc Plating (Other Options Available)
- Customizations (Bends, Pivot Slides, Cold Heading)

Value-added features:

- Pre-assembled to reduce assembly labor
- Reduced SKUs & number of suppliers
- Lower per part cost
- Faster turnaround
