## MOTOR MOUNT ASSEMBLING FIXTURE

Our revolutionary assembly fixture installs the motor mount to the motor. Triangle designed this ground-breaking assembly machine and is currently the only producer. Many of our OEM's have incorporated this machine into their current assembly set-up and save thousands on more efficient shipping.

## BENEFITS

- Easy-to-use assembly fixture installs the motor mount to the motor
- Shipping costs are saved when our components are shipped unassembled
- Easily incorporated into your current assembly set-up

## ABOUT TRIANGLE MANUFACTURING

For almost a century, Oshkosh, Wisconsin's Triangle Manufacturing has used a foundation of experience paired with technical know-how and advanced automation to be the leader in fully customizable metal fabrication, product innovation and invention. We have introduced and redesigned fresh products that are progressive in their respective industries. Whether you need lazy susan bearings and HVAC components, pillow block mountings and blower bearing brackets or rod ends and direct-drive motor mounts, you can rely on Triangle Manufacturing's Creative Engineering.

*Our components help make up HVAC systems that keep you cool when it's hot and toasty when it's not.*
